This documentation will show you step by step how to complete the basic configuration of **Travel Company**. It is important that you follow these steps carefully because some steps build up on each other and that will help you a great deal to set up your website properly:

- 1. How to set up a static front page in WordPress?
- 2. How to upload, install and activate Travel Company?
- 3. What is page and how to create it?
- 4. What is category and how to create it?
- 5. How to create menus?
- 6. How & where to place widgets on your website?
- 7. How to create posts?
- 8. How to add logo and site title/tagline?
- 9. How to adjust options & layout?
- 10. How to add google map in contact section?

1 – How to set up a static front page in WordPress?

In order to create a Travel Company like front page like shown in the theme demos for Travel Company,

- First to create new page named Home(or else).
- Select Homepage template for your just newly created page under Page Attributes on the right side.
- Finally, publish this page.

2 – How to upload, install and activate Travel Company?

From WordPress Dashboard

- Login to Wordpress admin panel
- Go to > Appearance > Themes
- Click in add New >Upload travel-company.zip file > Install Now
- Activate the theme

After installing the theme, now you can customize your website as per your preference.

3 –What is page and how to create it?

Pages are static and are not listed by date. Pages do not use tags or categories. An about page is the classic example. Pages can be displayed in the sidebar using the Pages widget, and some themes display pages in the navigation at the top of the site.

-To create page

- Go to dashboard
- Click in Pages > Add New > Follow instructions as below

4 - What is category and how to create it?

Categories provide a helpful way to group related posts together, and to quickly tell readers what a post is about. Categories also make it easier for people to find your content. Categories are similar to, put broader than,tags.

How to create categories

- Go to dashboard
- Click in **Posts > Categories**
